

## **For Sale – Used Rolling Mill \$3,500**

Durston 100mm Electric Double Combination Rolling Mill (DRM 100)

**Condition:** The rolling mill is hardly used and in excellent condition.

This is an electric motor driven double rolling mill. It has two sides, one with flat rollers for sheet and the other side for square wire reduction. There are also two extension rollers for half-round wire with a total of seven half-round grooves.

The following is taken from the Rio Grande 2018-2019 catalog:

1hp motor, 110 volts, variable speed from 5 – 30rpm.

Roller diameter is 50mm; right-hand side extension rollers (located behind the black safety guards) have four “D” grooves: 4, 3, 2 and 1.5mm; left-hand side extension rollers have three “D” grooves: 8, 6 and 3.5mm.

Roller area: flat, 100mm; wire 17 grooves (10 – 1mm).

Maximum thickness: 5mm.

Variable speed forward and reverse; two emergency stop buttons.

Shipping weight: 345 lbs. (156kg).

Dimensions: 27 1/2” W x 13 3/8” D x 19 11/16” H (700 x 340 x 500mm).

(Page 225, Rio Grande 2018-2019 catalog).
